HEALTHCARE INDUSTRY | MARKET RESEARCH & BUSINESS ANALYSIS

PROFESSIONAL SUMMARY

Healthcare industry professional with 3+ years of experience in dental laboratory operations, B2B customer coordination, and business support. Brings practical knowledge of dental practice and laboratory workflows to independent U.S. dental laboratory market research, including market sizing, establishment growth, geographic comparisons, and data quality assessment. Developed a Tableau dashboard using U.S. Census and CMS data to examine market conditions and identify locations for further investigation. Skilled in coordinating customer requirements, investigating billing discrepancies, and communicating operational observations. Building analytical capabilities in Excel, SQL, Python, and Tableau.

CORE SKILLS & TOOLS

Market Research:
Market sizing, market growth analysis, geographic market analysis, establishment trends, market density, data quality assessment

Industry & Business:
Dental laboratory operations, healthcare industry knowledge, B2B customer coordination, workflow and delivery coordination, inventory and purchasing, billing reconciliation

Tools:
Tableau, Excel, SQL, Python (Pandas, NumPy), Matplotlib

SELECTED MARKET RESEARCH PROJECT

U.S. Dental Laboratory Market Opportunity Assessment | Independent Project 2026–Present
Tableau Public Dashboard | Independent research project

- Integrated U.S. Census County Business Patterns (NAICS 339116 and 621210), population estimates, and CMS state dental expenditure data to assess the U.S. dental laboratory market.
- Compared dental practice and dental laboratory establishment trends across states, including long-term (2010–2023) and recent (2018–2023) growth, and examined population trends and market density.
- Calculated compound annual growth rates (CAGR), Growth Gap between dental practice and laboratory establishment growth, population-per-establishment ratios, and dental expenditure growth.
- Conducted county-level comparisons for selected states and documented data coverage limitations; treated establishment counts and market density as screening indicators rather than direct measures of demand, revenue, or laboratory capacity.

PROFESSIONAL EXPERIENCE

Manager & Sales Representative | Success Dental Lab **Jun 2023–Mar 2026**
Surrey, British Columbia, Canada

- Independently monitored material inventory, determined replenishment quantities and purchasing schedules, and coordinated supply orders with vendors.
- Coordinated daily work priorities and case schedules across technicians, monitored case progress and delivery deadlines, and arranged schedule adjustments when needed.
- Trained technicians on new equipment, technologies, and laboratory workflows; provided day-to-day troubleshooting support and consulted technical support teams when necessary.
- Reconciled monthly billing totals against individual case invoices, investigated discrepancies such as misattributed dentist records and pricing changes, and independently corrected billing records.

Sales Representative | Success Dental Lab
Oct 2022–Jun 2023
Surrey, British Columbia, Canada

- Served as a primary point of contact for dental practice accounts, explaining laboratory processes and technical options, handling case consultations, and communicating customer requirements to the owner.
- Identified potential dental practice accounts through online research and direct visits; introduced the laboratory's products and services to prospective customers.
- Planned delivery routes and personally delivered completed cases to dental practices; confirmed case readiness and coordinated schedule adjustments when required.

Team Leader | IKEA
Apr 2022–Jul 2022
Coquitlam, British Columbia, Canada

- Coordinated incoming inventory with the Logistics department, verified delivery quantities, and identified missing deliveries.
- Assigned daily tasks, monitored stock levels, and prepared ingredients in advance to help prevent operational disruptions.
- Monitored team adherence to procedures and recommended more efficient work methods when appropriate.
